EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title has been changed to --A method of manufacturing a measuring wheel for wireline operations--

Claims 16-19 have been canceled.

Remarks

2. Applicant's amendment and corresponding arguments dated August 6, 2004 ("Response") define over the art of record. Spaeder, Jr. does not disclose the step of "machining the perimeter of a disk-like wheel to achieve a first outer radius.— Furthermore, there is no motivation in Spaeder, Jr. or any of the other cited references to manufacture a measuring wheel having a disk-like wheel by the claimed method.
3. The title of the invention was amended to better reflect the elected invention.
4. Claims 16-19 were canceled drawn to a non-elected invention. Applicant made the election without transverse. See Response, page 6.

5. Upon review, the Examiner acknowledges that the objection to the drawings was made in error and is hereby withdrawn. The drawings filed July 3, 2003 are accepted in full by the Examiner.
